American Society for Radiation Oncology

**1.0 New or Maintenance**

Maintenance

**1.1 Measure Structure**

Single Measure

**1.3 Electronic Clinical Quality Measure (eCQM)**

No

**1.6 Measure Description**

Percentage of patients, regardless of age, with a diagnosis of cancer who have undergone brachytherapy or external beam radiation therapy who have a treatment summary report in the chart that was communicated to the physician(s) providing continuing care and to the patient within one month of completing treatment

**1.7 Measure Type**

Process

**1.8 Level of Analysis**

---

Clinician: Group/Practice, Clinician: Individual

## 1.9 Care Setting

Other, Outpatient Services

### 1.14 Numerator

Patients who have a treatment summary\* report in the chart that was communicated to the physician(s) providing continuing care and to the patient within one month of completing treatment

### 1.15 Denominator

All patients, regardless of age, with a diagnosis of cancer who have undergone brachytherapy or external beam radiation therapy

## 1.20 Types of Data Sources

Claims Data, Electronic Health Records: Electronic Health Records, Other, Paper Patient Medical Records, Registry data

## 6.1.2 Current or Planned Use(s)

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization)

## Exclusions

Documentation of a patient reason(s) for not communicating the treatment summary report to the physician(s) providing continuing care (eg, patient requests that report not be sent) and to the patient within one month of completing treatment

Documentation of a system reason(s) for not communicating the treatment summary report to the physician(s) providing continuing care (eg, patient does not have any physician responsible for providing continuing care) and to the patient within one month of completing treatment

## Measure Disclaimer

See copyright statement above.

## Planned Use

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization)

## Risk Adjustment

No risk adjustment or risk stratification

## Target Population

Elderly
