1.0 New or Maintenance

Maintenance

1.1 Measure Structure

Single Measure

1.3 Electronic Clinical Quality Measure (eCQM)

No

1.6 Measure Description

Percentage of patients, regardless of age, with a diagnosis of cancer who are seen in the ambulatory setting who have cancer staging documented using any standardized system or documentation that the cancer is metastatic in the medical record within one month of first office visit

1.7 Measure Type

Process

1.8 Level of Analysis

Clinician: Group/Practice, Clinician: Individual

1.9 Care Setting

Other, Outpatient Services

1.14 Numerator

Patients who have cancer staging documented using any standardized system or documentation that the cancer is metastatic in the medical record within one month of the first office visit

1.15 Denominator

All patients, regardless of age, with a diagnosis of cancer who are seen in the ambulatory setting.

1.20 Types of Data Sources

Registry data

6.1.2 Current or Planned Use(s)

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

6.1.3 Current Use(s)

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization)

Exclusions

Patients with a documented case of leukemia, myeloma, or myelodysplastic syndromes (MDS).

Measure Disclaimer

These Measures are intended to assist physicians in enhancing quality of care. Measures are designed for use by any physician who manages the care of a patient for a specific condition or for prevention. These performance Measures are not clinical guidelines and do not establish a standard of medical care.

Measures are subject to review and may be revised or rescinded at any time. The Measures may not be altered without the prior written approval of PCPI and ASCO.

Planned Use

Public Reporting, Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

Risk Adjustment

No risk adjustment or risk stratification

Target Population

Elderly
