## **Title**

Functional status change for patients with Knee impairments

## **Project**

Patient Experience and Function

## **Endorsement Status**

Endorsement Removed

## **Is Under Review**

No

## **Previous Endorsement Cycle**

Spring 2021

## **Removal Date**

Thu, 04/08/2021 - 20:00

## **Initial Endorsement**

Sat, 07/12/2008 - 20:00

## **Steward**

Focus on Therapeutic Outcomes

## **1.0 New or Maintenance**

Maintenance

## **1.1 Measure Structure**

Single Measure

## **1.3 Electronic Clinical Quality Measure (eCQM)**

No

## **1.6 Measure Description**

A self-report measure of change in functional status for patients 14 year+ with knee impairments. The change in functional status assessed using FOTO's (knee ) PROM is adjusted to patient characteristics known to be associated with functional status outcomes (risk adjusted) and used as a performance measure at the patient level, at the individual clinician, and at the clinic level to assess quality.

## **1.7 Measure Type**

Patient-reported Outcome Performance Measure (PRO-PM)

---

## 1.8 Level of Analysis

Clinician: Group/Practice, Clinician: Individual, Facility

## 1.9 Care Setting

Other, Outpatient Services, Post-Acute Care

## 1.14 Numerator

Patient Level: The residual functional status score for the individual patient (residual scores are the actual change scores - predicted change after risk adjustment). Individual Clinician Level: The average of residuals in functional status scores in patients who were treated by a clinician in a 12 month time period for knee impairment. Clinic Level: The average of residuals in functional status scores in patients who were treated by a clinic in a 12 month time period for knee impairment.

## 1.15 Denominator

All patients 14 years and older with knee impairments who have initiated rehabilitation treatment and completed the FOTO knee FS PROM at admission and discharge.

## 1.20 Types of Data Sources

Electronic Health Data, Instrument-Based Data, Paper Patient Medical Records

## 6.1.2 Current or Planned Use(s)

Public Reporting

## Exclusions

- Patients who are not being treated for a Knee impairment
- <14 years of age

## Planned Use

Public Reporting

## Risk Adjustment

Statistical risk model

## Target Population

Dual eligible beneficiaries, Elderly, Populations at Risk, Veterans

## Use In Federal Program

Medicare Physician Quality Reporting System (PQRS), Physician Feedback/Quality and Resource Use Reports (QRUR), Physician Value-Based Payment Modifier (VBM)

## Steward Organization

Focus on Therapeutic Outcomes
