1.0 New or Maintenance

Maintenance

1.1 Measure Structure

Single Measure

1.3 Electronic Clinical Quality Measure (eCQM)

No

1.6 Measure Description

The total number of hours that all patients admitted to a hospital-based inpatient psychiatric setting were held in seclusion.

1.7 Measure Type

Process

1.8 Level of Analysis

Facility

1.13 Data Dictionary

Not attached. I attest that all information will be provided where codes and/or value sets are

needed (1.14a - 1.15c).

1.14 Numerator

The total number of hours that all psychiatric inpatients were held in seclusion
Numerator Basis:
The numerator evaluates the number of hours of seclusion; however, the algorithm calculates the number of minutes to ensure a more accurate calculation of the measure. Convert the minutes to hours when analyzing and reporting this measure.

1.15 Denominator

Number of psychiatric inpatient days
Denominator basis per 1,000 hours
To compute this measure rate, a base of 1000 hours has been applied to total patient days in the denominator (i.e., total patient days are divided by 1000). The purpose of this is to create a smaller denominator number, thus providing a more understandable rate. When multiplied by 1000, this rate measures numerator occurrence per total patient days.

1.20 Types of Data Sources

Paper Patient Medical Records

6.1.2 Current or Planned Use(s)

Public Reporting, Payment Program, Regulatory and Accreditation Programs, Quality Improvement with Benchmarking (external benchmarking to multiple organizations), Quality Improvement (Internal to the specific organization)

6.1.3 Current Use(s)

Public Reporting, Payment Program, Regulatory and Accreditation Programs, Quality Improvement with Benchmarking (external benchmarking to multiple organizations), Quality Improvement (Internal to the specific organization)

Exclusions

Total leave days

Planned Use

Public Reporting

Risk Adjustment

No risk adjustment or risk stratification

Target Population

Elderly

Use In Federal Program

Hospital Compare, Inpatient Psychiatric Facility Quality Reporting
