1.0 New or Maintenance

Maintenance

1.1 Measure Structure

Single Measure

1.3 Electronic Clinical Quality Measure (eCQM)

No

1.6 Measure Description

Percentage of discharges from an emergency department (ED) to ambulatory care or home health care, in which the patient, regardless of age, or their caregiver(s), received a transition record at the time of ED discharge including, at a minimum, all of the specified elements

1.7 Measure Type

Process

1.8 Level of Analysis

Facility, Integrated Delivery System

1.9 Care Setting

Emergency Department and Services

1.14 Numerator

Discharges in which the patient or their caregiver(s) received a transition record at the time of emergency department (ED) discharge including, at a minimum, all of the following elements:- Summary of major procedures and tests performed during ED visit, AND- Principal clinical diagnosis at discharge which may include the presenting chief complaint, AND- Patient instructions, AND- Plan for follow-up care (OR statement that none required), including primary physician, other health care professional, or site designated for follow-up care, AND- List of new medications and changes to continued medications that patient should take after ED discharge, with quantity prescribed and/or dispensed (OR intended duration) and instructions for each

1.15 Denominator

All discharges for patients, regardless of age, from an emergency department (ED) to ambulatory care (home/self care) or home health care

1.20 Types of Data Sources

Electronic Health Data, Paper Patient Medical Records

6.1.2 Current or Planned Use(s)

Public Reporting, Use unknown

6.1.3 Current Use(s)

Use unknown

Exclusions

Exclusions:

Patients who died

Patients who left against medical advice (AMA) or discontinued care

Exceptions:

Patients who declined receipt of transition record

Patients for whom providing the information contained in the transition record would be prohibited by state or federal law

Measure Disclaimer

The Measures are not clinical guidelines, do not establish a standard of medical care, and have not been tested for all potential applications.

The Measures, while copyrighted, can be reproduced and distributed, without modification, for noncommercial purposes, e.g., use by health care providers in connection with their practices. Commercial use is defined as the sale, license, or distribution of the Measures for commercial

gain, or incorporation of the Measures into a product or service that is sold, licensed or distributed for commercial gain.

Commercial uses of the Measures require a license agreement between the user and the PCPI® Foundation (PCPI®) or the American Medical Association (AMA). Neither the American Medical Association (AMA), nor the AMA-convened Physician Consortium for Performance Improvement® (AMA-PCPI), now known as the PCPI, nor their members shall be responsible for any use of the Measures. AMA and PCPI encourage use of the Measures by other health care professionals, where appropriate.

THE MEASURES AND SPECIFICATIONS ARE PROVIDED “AS IS” WITHOUT WARRANTY OF ANY KIND.

Planned Use

Public Reporting

Risk Adjustment

No risk adjustment or risk stratification

Target Population

Elderly
