Title

Functional Capacity in COPD patients before and after Pulmonary Rehabilitation

Project

Patient Experience and Function

Endorsement Status

Endorsement Removed

Is Under Review

No

Previous Endorsement Cycle

Fall 2018

Removal Date

Wed, 07/11/2018 - 20:00

Initial Endorsement

Sun, 01/16/2011 - 19:00

1.0 New or Maintenance

Maintenance

1.1 Measure Structure

Single Measure

1.3 Electronic Clinical Quality Measure (eCQM)

No

1.6 Measure Description

The percentage of patients with COPD who are found to increase their functional capacity by at least 25 meters (82 feet), as measured by a standardized 6 minute walk test (6MWT) after participating in pulmonary rehabilitation (PR).

1.7 Measure Type

Outcome

1.8 Level of Analysis

Clinician: Group/Practice, Clinician: Individual, Facility

1.9 Care Setting

Outpatient Services

1.14 Numerator

Number of patients who are found to increase their functional capacity by at least 25 meters (82 feet), as measured by 6MWT distance at PR program entry and completion.

1.15 Denominator

All patients with clinician diagnosed COPD at PR program entry who completed PR during the measurement period and who completed at least 10 PR sessions within 3 months of PR program entry.

1.20 Types of Data Sources

Management Data, Registry data

6.1.2 Current or Planned Use(s)

Public Reporting, Quality Improvement (Internal to the specific organization)

6.1.3 Current Use(s)

Public Reporting, Quality Improvement (Internal to the specific organization)

Exclusions

Patients for whom a 6MWT would be contraindicated due to acute or unstable medical conditions

Patients who are unable to perform a 6MWT due to orthopedic, neurological, cognitive or psychiatric impairments and/or safety reasons.

Patients who have not completed at least 10 PR sessions within 3 months of program entry.

Measure Disclaimer

This measure and specifications are provided “as is” without warranty of any kind. AACVPR shall not be responsible for any use of these performance measures.

Planned Use

Public Reporting

Risk Adjustment

No risk adjustment or risk stratification

Target Population

Elderly
