Female patients or caregivers counseled* at least once a year about how epilepsy and its treatment may affect contraception OR pregnancy.*Counseling should include a discussion about folic acid supplementation, contraception, potential anti-seizure medications effect(s) on pregnancy, safe pregnancies, and breastfeeding.

1.15 Denominator

All females of childbearing potential (12-44 years old) with a diagnosis of epilepsy.

1.20 Types of Data Sources

Other, Paper Patient Medical Records

6.1.2 Current or Planned Use(s)

Payment Program, Professional Certification or Recognition Program, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

6.1.3 Current Use(s)

Payment Program, Professional Certification or Recognition Program, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

Exclusions

Excluded: patients diagnosed with menopause or surgically sterile.

Exceptions:

Patient has a diagnosis of neurodevelopmental disorder, encephalopathy, hydrocephalus, brain injury, or cerebral palsy.

Patient has a diagnosis of severe cognitive impairment or severe intellectual disability.

Measure Disclaimer

Quality Measures (Measures) and related data specifications developed by the American Academy of Neurology (AAN) are intended to facilitate quality improvement activities by providers.

These measures are intended to assist providers in enhancing quality of care. Measures are designed for use by any provider who manages the care of a patient for a specific condition or for prevention. These Measures are not clinical guidelines and do not establish a standard of medical care, and have not been tested for all potential applications. The AAN encourages testing and evaluation of its Measures.

Measures are subject to review and may be revised or rescinded at any time by the AAN. The Measures may not be altered without prior written approval from the AAN. The Measures, while copyrighted, can be reproduced and distributed, without modification, for noncommercial purposes (e.g., use by health care providers in connection with their practices). Commercial use is defined as the sale, license, or distribution of the measures for commercial gain, or incorporation of the Measures into a product or service that is sold, licensed, or distributed for commercial gain. Commercial uses of the Measures require a license agreement between the user and the AAN. Neither the AAN nor its members shall be responsible for any use of the Measures.

THESE MEASURES AND SPECIFICATIONS ARE PROVIDED “AS IS” WITHOUT WARRANTY OF ANY KIND.
