1.3 Electronic Clinical Quality Measure (eCQM)

No

1.6 Measure Description

The Medical Home System Survey (MHSS) assesses the degree to which an individual primary-care practice or provider has in place the structures and processes of an evidence-based Patient Centered Medical Home. The survey is composed of six composites. Each measure is used to assess a particular domain of the patient-centered medical home.

Composite 1: Patient-Centered Access

Composite 2: Team-Based Care

Composite 3: Population Health Management

Composite 4: Care Management and Support

Composite 5: Care Coordination and Care Transitions

Composite 6: Performance Measurement and Quality Improvement

1.7 Measure Type

Composite

1.8 Level of Analysis

Clinician: Group/Practice, Clinician: Individual

1.9 Care Setting

Outpatient Services

1.14 Numerator

Each of the six MHSS composites is composed of elements; each element is made up of individual factors. The factors are individual structures or processes of a patient-centered medical home. The score for each MHSS composite is calculated by adding the element scores. The element scores are based on the proportion of individual factors with a satisfactory "yes" response (i.e. the practice or provider can satisfactorily demonstrate the have in place the specific structure or process of care).

1.15 Denominator

The target population is eligible outpatient primary care practices.

1.20 Types of Data Sources

Other

6.1.2 Current or Planned Use(s)

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

Exclusions

None

Measure Disclaimer

These performance Measures are not clinical guidelines and do not establish a standard of medical care, and have not been tested for all potential applications.

THE MEASURES AND SEPCIFICATIONS ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND.

Planned Use

Professional Certification or Recognition Program, Public Reporting, Quality Improvement

(Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

Risk Adjustment

No risk adjustment or risk stratification

Target Population

Children, Elderly, Populations at Risk: Dual eligible beneficiaries, Populations at Risk: Individuals with multiple chronic conditions, Populations at Risk: Populations at Risk, Populations at Risk: Veterans, Women
