Title

Reduction of Complications through the use of Cystoscopy during Surgery for Stress Urinary Incontinence

Project

Surgery

Endorsement Status

Endorsement Removed

Is Under Review

No

Previous Endorsement Cycle

Spring 2018

Removal Date

Tue, 10/23/2018 - 20:00

Initial Endorsement

Wed, 11/12/2014 - 12:11

Steward

American Urological Association

1.0 New or Maintenance

Maintenance

1.1 Measure Structure

Single Measure

1.3 Electronic Clinical Quality Measure (eCQM)

No

1.6 Measure Description

Percentage of SUI surgeries for which cystoscopy was used during the surgical procedure to reduce complications

1.7 Measure Type

Process

1.8 Level of Analysis

Clinician: Individual

1.9 Care Setting

Outpatient Services

1.14 Numerator

Female patients who had SUI surgery for which cystoscopy was used during the surgical procedure to reduce complications

1.15 Denominator

Female patients who had SUI surgeries (without concomitant surgery for prolapse)

1.20 Types of Data Sources

Claims Data, Paper Patient Medical Records

6.1.2 Current or Planned Use(s)

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

6.1.3 Current Use(s)

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

Exclusions

Documentation of medical reason(s) for not using cystoscopy during SUI surgery (patients for whom the use of a cystoscope may not be appropriate, such as the presence of a new cystostomy repair). The panel noted that endoscopy after a new repair should be cautiously used. Concomitant prolapse surgery is an exclusion.

Measure Disclaimer

Physician Performance Measures (Measures) and related data specifications have been developed by the American Urological Association (AUA) and the American Congress of Obstetricians and Gynecologists (ACOG)

These performance Measures are not clinical guidelines and do not establish a standard of medical care, and have not been tested for all potential applications. Neither AUA, ACOG, the American Medical Association (AMA), the AMA-convened Physician Consortium for Performance Improvement® (PCPI™) nor its members shall be responsible for any use of the Measures. AUA and ACOG encourage use of these Measures by other health care professionals, where appropriate.

Planned Use

Professional Certification or Recognition Program, Public Reporting, Quality Improvement (Internal to the specific organization), Quality Improvement with Benchmarking (external benchmarking to multiple organizations)

Target Population

Elderly, Populations at Risk

Steward Organization
