

Full Measure Submission to Partnership for Quality Measurement

Importance

Provide evidence of performance gap or measurement gap by providing performance scores on the measure as specified (current and over time) at the specified level of analysis.*

Analysis for the HCBS ACSC measure is aggregated at the state level. Analysis of the measure's performance gap is presented in **Exhibit 1**, below. **Exhibit 1** displays the distribution of performance scores and denominator counts across the measure's three rates—chronic conditions, acute conditions, and total conditions. The denominator includes eligible Medicaid HCBS participants in the measurement year.

Exhibit 1. Distribution of Performance Scores and Denominator Counts for HCBS ACSC Rates

Rate*	Participant Count**	Performance Rate***	Mean	Std Dev	Min	Decile 1	Decile 2	Decile 3	Decile 4	Decile 5	Decile 6	Decile 7	Decile 8	Decile 9	Decile 10
Chronic Admissions	188,459	46.64	47.66	17.01	20.29	28.80	32.21	35.82	39.31	44.18	48.13	60.53	63.57	72.23	88.09
Acute Admissions	88,436	21.89	24.97	8.44	11.25	15.19	19.42	20.47	21.22	23.49	25.26	27.15	31.68	35.89	54.42
Total Admissions	244,436	60.55	63.71	20.46	28.73	41.64	45.91	52.31	54.16	57.99	69.26	75.23	82.40	91.66	117.89

* Data reported in this table are observed values.

** The total participants included in the HCBS ACSC measure is 4,040,676 participants, which come from 49 states and the District of Columbia. The participant counts reported in the table are the numerator counts of three measures.

*** The performance rate is reported per 1,000 participants.
