

Pre-Rulemaking Measure Review (PRMR) Post-Acute Care/Long-Term Care (PAC/LTC) Roster

Draft for Public Comment

July 2025

Prepared by:
Battelle
505 King Avenue, Columbus, Ohio 43201

The analyses upon which this publication is based were performed under Contract Number 75FCMC23C0010, entitled, "National Consensus Development and Strategic Planning for Health Care Quality Measurement," sponsored by the Department of Health and Human Services, Centers for Medicare & Medicaid Services. *Restricted:* Use, duplication, or disclosure is subject to the restrictions as stated in Contract Number 75FCMC23C0010 between the Government and Battelle.

Introduction

The Pre-Rulemaking Measure Review (PRMR) process is conducted annually to provide recommendations to the Department of Health and Human Services (HHS) Centers for Medicare & Medicaid Services (CMS) on the selection of quality and efficiency measures under consideration for use in select CMS programs.

Measures for review are organized into three setting-specific committees: Clinician; Hospital; and Post-Acute Care/Long-Term Care (PAC/LTC).

Committees are divided into an Advisory Group (30-35 people) and a Recommendation Group (25-30 people). The Advisory Group provides feedback and questions about the measures under review that help guide Recommendation Group discussion. Based on that input, as well as public comments, the Recommendation Group renders final recommendations to CMS about which measures should be selected for use.

Please note, PRMR members may be organizational or individual members. Organizational members represent their organization's interest while serving on the committee while an individual member represents their own perspective and experience.

Nominees provide their biographies, which Battelle then edits for grammar and style and summarizes using AI. Battelle staff conducted final reviews.

Learn more about membership types and roster categories in the [Guidebook of Policies and Procedures for Pre-Rulemaking Measure Review \(PRMR\) and Measure Set Review \(MSR\)](#).

2025-2026 PRMR PAC/LTC Roster

Name (Last, First)	Roster Category	Advisory or Recommendation Group ¹	Term Period	Location (City, State)	Biography ²
Aaron, Leslie	Patient Representative	Advisory	8/2025-7/2028	Ann Arbor, MI	Leslie Aaron has over 17 years of experience in home help and patient advocacy, specializing in non-medical support for hospital-to-home transitions, post-acute care assessment, and collaboration with Adult Protective Services to improve patient outcomes. Serving as an individual representative.
Accetta, Robert	Clinician	Recommendation	8/2024-7/2027	Lake Success, NY	Robert Accetta is a senior pharmacist at Island Peer Review Organization, Inc. with over 35 years of experience in post-acute, long-term care, and assisted living pharmacy services. He specializes in quality assurance, survey preparedness, pharmacy consulting, and education. Serving as an individual representative.
Albertson, Maureen	Facility/Institution	Advisory	8/2025-7/2028	Port Charlotte, FL	Maureen Albertson has over 32 years of experience in home health care, specializing in compliance, quality assurance, and value-based purchasing. She serves as Legislative Task Force chairperson for Home Care Association of Florida, focusing on advocacy and advancing patient care. Serving as an organizational representative, Millennium Homecare.
Battaglia, Susan	Other Interested Party	Recommendation	8/2023-7/2026	Eden, NY	Susan Battaglia has over 40 years of experience in skilled nursing facilities, specializing in compliance auditing, minimum data set education, quality measures, and quality improvement. She previously served on CMS technical expert panels and American Health Care Association committees focused on long-term care. Serving as an individual representative.

¹ Committee members will serve on both Advisory and Recommendation Groups throughout their tenure. The Advisory and Recommendation Group assignments in this roster only apply to the 2025-2026 PRMR cycle.

² The Partnership for Quality Measurement (PQM) used Battelle’s AI Neural Network Interface to summarize biographies submitted by committee members. PQM staff then reviewed the summaries against the original biographies to ensure accuracy.
