

## CBE 2978: Hemodialysis Vascular Access: Long-term Catheter Rate (LTC)

### 2.4 Performance Gap

**Table 1 Performance Scores by Decile**

*Enter overall mean, minimum, and maximum performance scores, along with the count of measured entities and persons/encounters/episodes. Organize entities into deciles by performance scores from 1 (low scores) to 10 (high scores), noting that "high" refers to magnitude, not quality. Provide mean performance scores, number of entities (total) and number of persons/encounters/episodes (total) for entities assigned to each decile. Note that measures being submitted for maintenance review are expected to report on the performance gap, while measures submitted for initial endorsement may provide this information, if available.*

*[There is space in the form to provide a table caption, if desired.]*

	Overall	Min	Decile 1	Decile 2	Decile 3	Decile 4	Decile 5	Decile 6	Decile 7	Decile 8	Decile 9	Decile 10	Max
Mean Performance Score	16.2	0.0	4.9	8.4	10.4	12.2	14.0	15.7	17.7	20.1	23.7	34.9	100.0
N of Entities	7209	718	720	724	718	721	721	721	721	721	721	721	724
*N of Persons / Encounters / Episodes	76	11	64	78	79	81	79	80	80	77	73	69	1067

There is a significant performance gap. Facilities in decile 1 (highest performing group) have only 4.9% of patient months with a long-term catheter. Facilities in decile 10 (lowest performing group) have 34.9% of patient months with a long-term catheter.
