

National Consensus Development and Strategic Planning for Health Care Quality Measurement

Measure Set Review (MSR) Recommendation Group Roster

Draft for Public Comment

July 2026

Prepared by:

Battelle

505 King Avenue, Columbus, Ohio 43201

This roster was developed under Contract Number 75FCMC23C0010, entitled, "National Consensus Development and Strategic Planning for Health Care Quality Measurement," sponsored by the Department of Health and Human Services, Centers for Medicare & Medicaid Services. *Restricted:* Use, duplication, or disclosure is subject to the restrictions as stated in Contract Number 75FCMC23C0010 between the Government and Battelle.

Introduction

Battelle conducts the Measure Set Review (MSR) process annually to provide recommendations on the continued use of measures in Centers for Medicare & Medicaid Services (CMS) programs.

All MSR Recommendation Group members also sit on a Pre-Rulemaking Measure Review (PRMR) committee. The 2026 MSR Recommendation Group members will serve a 1-year term, from August 2026-July 2027, which is separate from their PRMR term.

Please note, PRMR/MSR members may be organizational or individual members. Organizational members represent their organization's interest on the committee while an individual member represents their own perspective and experience.

Nominees provide their biographies. Battelle uses artificial intelligence (AI) to edit them, and staff review the final versions. Battelle edits biographies only for typographical and grammatical accuracy and to ensure they remain under the 250-character limit.

Learn more about membership types and roster categories in the [Guidebook of Policies and Procedures for PRMR and MSR](#).
