

## Final Endorsement and Maintenance Fall 2023 and Spring 2024 Primary Prevention Committee Roster

### Co-chair(s)

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
John Krueger (Non-Patient Co-Chair)	Rural Health Expert; Clinician; Facility/Institutional; Purchaser and Plan; Health Equity Expert; Other Interested Parties	MD, MPH	Undersecretary, Medical Staff and Quality, Chief Medical Officer (CMO), Chief Quality Officer (CQO)	The Chickasaw Nation Department of Health	Ada, Oklahoma	Dr. John Krueger is a health care executive and family physician with more than 20 years of experience. He has worked in clinical care and health care leadership roles in a variety of systems as Chief Medical Officer, Chief of Staff, Chief Quality Officer, Associate Dean and now as Undersecretary of Medical Staff and Quality within a large tribal health system. He was a 2010-2011 George W. Merck Fellow at the Institute for Healthcare Improvement (IHI), an IHI Faculty member and in 2023 was recognized by Becker's Healthcare as one of the "110 Hospital and Healthcare CMO's to Know". He has assisted multiple health systems including the VA, Catholic Health, IHS and tribal health, ACO's and managed Medicaid and Medicare, as well as international health organizations with achieving national recognition for performance in health care quality and safety to include top scores and outcomes in Leapfrog, Healthgrades, Premier, HVBP, HAC/HAI, HRRP, AHRQ PSI, TJC ORYX, numerous and varied NQF metrics, NCQA-HEDIS, MIPS, ACO QPP, VA-SAIL, MSSP, CMS Hospital Compare and Quality Foundation awards as a prelude to National Malcolm Baldrige recognition.
Quinyatta Mumford (Patient Co-Chair)	Patient Partner; Health Equity Expert; Other Interested Parties	DrPH, MPH, CHES	Chief Executive Officer	Mumford and Associates	Little Rock, Arkansas	Dr. Quinyatta Mumford is a seasoned public health practitioner with extensive experience in health education and promotion, program design and implementation, and the assessment of rural health care resources. Dr. Mumford specializes in enhancing community health through education, strategic program development, and thorough resource evaluation within rural settings. Her commitment to addressing rural populations' distinctive health care challenges underscores her dedication to improving public well-being. In addition to her professional expertise, Dr. Mumford brings valuable experience as a clinical health educator and a personal understanding of in-patient and

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						outpatient health care. Her dedication to population health, specifically focusing on adolescent health and development, drives their passion for making a lasting impact on public well-being.

## Committee Members

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
Adelisa Perez-Hudgins	Other Interested Parties; Clinician	RN	Director of Quality	New Jersey Health Care Quality Institute	Trenton, New Jersey	Ms. Adelisa Perez-Hudgins is the Director of Quality at the New Jersey Health Care Quality Institute. In this role, she drives quality improvement and patient safety initiatives to improve the health and wellbeing of New Jersey residents. A registered nurse, Ms. Perez-Hudgins brings a decade of clinical experience to her work leading the Quality Institute's quality improvement, transparency, and community wellness initiatives, including The Leapfrog Group and Conversation of Your Life.
Amir Qaseem	Clinician; Other Interested Parties	MD, PhD, MHA, MRCP (London), FACP	Senior Vice President, Clinical Policy; Chief Science Officer	American College of Physicians	Philadelphia, Pennsylvania	Dr. Amir Qaseem is the Senior Vice President, Clinical Policy, and Chief Science Officer at the American College of Physicians (ACP). In this role, Dr. Qaseem directs the College's efforts to improve the quality of patient care via the development and dissemination of evidence-based medical policies related to clinical practice and performance measurement. Under his leadership, ACP has developed numerous national and international collaborations to critically evaluate performance measurement systems and challenges that clinicians encounter when promoting evidence-based care. He oversees the performance measurement program of the College and has developed standards to assess whether performance measures are addressing an important area, clinically appropriate, evidence-based, and properly specified. He has been integrally involved with various national and international organizations in the evaluation of measures, including chairing the NQF's Prevention and Population Health Standing Committee for many years and serving as a member of the MAP's Coordinating Committee. He has a

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						comprehensive understanding of the current health care environment, need for appropriate performance measurement to improve quality of care, and knowledge of measurement science to adequately review measures.
Barbara Petersen	Facility/Institutional; Patient Partner; Clinician	DNP, APRN, MSN, RN, CPHQ	Chief Quality Officer	Great Plains Health	North Platte, Nebraska	Ms. Barbara Petersen is responsible for ensuring the clinical and operational oversight of quality, patient satisfaction, infection control, and regulation integrity. Ms. Petersen has over 25 years of clinical experience in a variety of acute care roles that extend from emergency medicine, family medicine, cardiology, stroke, orthopedics, and quality. Ms. Petersen received her Master of Nursing degree in Family Nurse Practitioner Specialty from Clarkson College in Omaha and her Bachelor of Nursing degree from Midland Lutheran College. Ms. Petersen obtained her Doctor of Nursing at Creighton University in Omaha, Nebraska in the area of Nursing Administration and Leadership.
Christa Starkey	Clinician; Patient Partner	LLP, MCSP	Psychologist	S.W. Zimostrad and Associates P.C.	Midland, Michigan	Ms. Christa Starkey is a Limited License Psychologist and Michigan Certified School Psychologist. She holds a Bachelor of Arts degree in Psychology from Saginaw Valley State University and a Master of Arts degree in School and Community Psychology from Wayne State University. She is a member of the American Psychological Association and the Michigan Association of School Psychologists. During the day, Ms. Starkey works as a school psychologist for the Midland County Educational Service Agency and works part-time in the evening as a therapist.
Daniel Kelley	Patient Partner	MA	Communications and Translation Manager	Wellframe	Amesbury, Massachusetts	Mr. Daniel Kelley has over 15 years of experience in medical communication and education. A trained translator, writer, editor, and content developer, he brings a passion for health equity, language access, and the power of technology to transform health care. Past projects include work in clinical research, data analysis, provider training, and patient education. His current work is focused on the role of digital technology in mitigating barriers to care and empowering traditionally underserved populations in navigating the health care system. Mr. Kelley looks forward to serving on the

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						Primary Prevention committee and contributing to the endorsement and maintenance of quality measures.
David Pryor	Facility/Institutional; Clinician; Health Equity Expert	MHA, CPHQ	Senior Quality Analyst	Intermountain Health	Broomfield, Colorado	Mr. David Pryor is a health care professional with years of experience in hospital and clinician measurement in federal, state, and commercial quality programs. While serving an integrated health system, he has been involved in many stages of the measure lifecycle, from evaluating proposals in federal rulemaking to implementation of new measures, maintenance of specification updates, and leveraging the subsequent data to engage clinicians and leadership in quality assessment and improvement. He has participated in successful initiatives that have used meaningful data from well-executed measures to foster more equitable care delivery and improve population health. Mr. Pryor brings understanding of the substantial leverage these measures and programs hold to influence quality priorities, promote patient safety, and reinforce evidence-based practices in virtually every area of our complex health system.
Heather Napier	Facility/Institutional; Clinician	MSN, RN, CPHQ, HACP	Executive Director of Quality and Outcomes	Baptist Health Corbin	Flat Lick, Kentucky	Ms. Heather Napier is the Executive Director of Quality and Outcomes at Baptist Health Corbin. She is certified as a Certified Professional in Healthcare Quality, Healthcare Accreditation Certified Professional, and has served on a clinical advisory workgroup for the American Association of Critical Care Nurses and currently sits on the DNV Healthcare Advisory Board Accreditation Committee. Prior to transitioning to her current role in quality, she served 10 years working within the Critical Care service line both at the bedside and as management focusing on implementing best practices to improve patient care. Her interest and focus centers around ensuing quality care is provided within health care and measures of care align with evidence-based practice.
Jean Morris	Facility/Institutional	RN, MSM, CHCQM	Director of Quality Management	Maricopa Integrated Health System	Phoenix, Arizona	Ms. Jean Morris has over 25 years of nursing experience, which includes critical care, acute rehab, legal nurse consultant, and quality reviewer for Arizona's Quality Improvement Organization (QIO). She has a deep interest in and understanding of health care regulations and state statutes. She has 15 years of quality management experience

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						including quality measure reporting, process improvement, patient safety, infection control, risk services, regulatory, and cardiovascular services. Jean is constantly seeking creative and integrative ways to promote safe patient care and continuous quality improvement.
Jeff Brady	Purchaser and Plan; Clinician; Health Services Researcher; Other Interested Parties	MD, MPH	Senior Vice President	Enterprise Research & Innovation, Highmark Health	Pittsburgh, Pennsylvania	Dr. Jeff Brady is board certified in General Preventive Medicine and Public Health and has worked at the intersection of public health and health care quality for more than 25 years. He is currently responsible for leading Highmark Health's overall research strategy and coordinating research activities that support the organization's enterprise mission. Before joining Highmark Health in 2022, Dr. Brady served in the Commissioned Corps of the U.S. Public Health Service as a senior leader in the Agency for Healthcare Research and Quality (AHRQ), where he directed AHRQ's Center for Quality Improvement and Patient Safety, overseeing several AHRQ programs, including Patient Safety Research and Implementation, Prevention of Healthcare-Associated Infections, the National Healthcare Quality & Disparities Report, and others focused on measuring and improving the safety and quality of health care. Dr. Brady retired from active duty at the rank of Rear Admiral/Assistant Surgeon General, after having also served as a medical officer in the FDA's Office of Vaccines, and in the U.S. Navy as a medical epidemiologist and primary care physician.
Jenna Williams-Bader	Other Interested Parties	MPH	Managing Director, Quality Measurement	National Quality Forum	Washington, D.C.	Ms. Jenna Williams-Bader is Managing Director of Quality Measurement at the National Quality Forum (NQF), where she oversees projects solving challenges related to quality measurement challenges and advancing digital quality measures and data standards. While at NQF, she also led the Measure Applications Partnership (MAP). Ms. Williams-Bader is a measure development expert with more than ten years of experience developing clinical quality measures for use in national public reporting and accountability programs, including the CMS Merit-Based Incentive Payment System (MIPS), Medicare EHR Incentive ("Meaningful Use") Program, and CMS Medicare Advantage Star Ratings. She has particular expertise with electronic clinical quality measures

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						(eQMs) and digital quality measures (dQMs), and has developed measures covering various clinical areas, including screenings, immunizations, and patient-reported outcomes (PROs).
Jennifer Rozenich	Rural Health Expert; Facility/Institutional	BS, MBA	Director of Planning and Analysis	Cook County Health System	Chicago, Illinois	Ms. Jennifer Rozenich is a change and decision science leader with a strong knowledge of mathematics and data. She has over 20 years of work experience using data to help organizations make decisions that impact processes and outcomes from a financial, operational and process standpoint. Her work experience consists of manufacturing, non-for-profit education, and health care industries. She has professionally grown from entry level analyst roles to leadership positions. She is often found helping strategically plan implementation of improvement efforts based on use of the data to recommend and prioritize key initiatives and objectives.
Jessica Hill	Patient Partner	BA, CCHW	--	--	New London, Connecticut	Ms. Jessica Hill is a patient advocate, with 15 years of experience in the social services field. Her work includes partnering with patients to address social determinants of health and barriers to their care. She is also a board member for the Southeastern Connecticut Community Land Trust. She hopes to contribute to the Endorsement and Maintenance, Primary Prevention Committee to advance the work of creating equitable and quality health care for all.
Joanne Campione	Health Services Researcher; Other Interested Parties	PhD, MSPA	Principal Research Associate	Westat	Durham, North Carolina	Dr. Joanne Campione has 30 years of experience as a health services researcher. Her key interests are provider quality measurement, patient safety, diabetes prevention, program evaluation, and the well-being of older persons. She has worked for and measured health care quality for a large insurer, a health system, a provider advocacy group, and a research organization. Thus, she has a strong understanding of stakeholders' technical challenges related to data sources and collection; the importance of measurement for improvement; the need for the measure endorsement process; and the political issues related to comparative reporting of measures.

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
Jon Burdick	Clinician; Facility/Institutional	MD	Resident Physician	St Joseph Hospital	Littleton, Colorado	Dr. Jon Burdick is a Family Medicine physician by training and has a clinical practice where he strives to apply the most current evidence-based medical practice to help every patient he sees live a healthy and long life. Over time, his career has evolved to include applying quality measures for his individual patients and panel, to teaching residents broadly about quality measurement and LEAN methodologies in health care. He now partners with hundreds of physicians and advanced practice professionals to understand how to leverage quality improvement methods and use quality measures to improve care and reduce disparities as Medical Director for Ambulatory Quality for Intermountain Health. He sees the opportunity of working with the Primary Prevention committee as a way to get involved even further upstream to improve the quality of health care for all patients.
Kevin Bowman	Purchaser and Plan; Clinician	MD, MBA, MPH	Staff VP, Clinical Interventions and Analytics	Elevance	Baltimore, Maryland	Dr. Kevin Bowman is trained in clinical medicine, business administration, and public health. He completed his medical training and Master of Public Health at Johns Hopkins University and is board certified in Preventive Medicine. He is interested in promoting health and has experience in improving population health outcomes.
Kimberly Rodgers	Patient Partner	--	--	--	--	Ms. Kimberly Rodgers is an African American female, who is an executive in the corporate world, and who had a stroke April 14, 2014. She was the caregiver of a Vietnam Veteran father, who had a massive stroke in 2008 and is now deceased. Ms. Rodgers has been a caregiver in her family since the age of 18 years old with her grandparents. Since her stroke, Ms. Rodgers has taken training courses and is now a certified patient advocate, lending a voice as both a caregiver and as a survivor of having a stroke.
Lawrence (Larry) Kraft	Rural Health Expert	ABD for PhD, MA	Development Consultant	Edgar May Health and Recreation Center	Springfield, Vermont	Dr. Lawrence Kraft previously served as Director of Development for two independent community hospitals and a network of primary care centers for 25 years. Currently, he continues his interest in the field of health care improvement as a consultant to a variety of clients, including a nursing home, a health and recreation center, and a Federal Qualified Health Center in another state. Earlier in his career, he

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						directed a Home Health Agency and was Manager of Provider Relations Departments for Medicaid programs in two states.
Lucy Marius	Patient Partner	--	Programs and Management Analyst	Federal Highway Administration	Washington, D.C.	Ms. Lucy Marius has an interest in influencing change to the U.S. health care system that will allow for easier access to affordable care and an easier understanding of billing. Her experience with health care is on a personal level as she has lived experience navigating insurance and care for herself as well as for her Spanish speaking parents.
Mahir Hussein	Health Equity Expert; Patient Partner	--	--	--	--	--
Melissa Eggen	Purchaser and Plan; Rural Health Expert; Health Services Researcher; Other Interested Parties	MPH, PhD	Instructor, Department of Health Management and Systems Sciences	University of Louisville School of Public Health and Information Sciences	Louisville, Kentucky	Ms. Melissa Eggen is a PhD candidate and Instructor at the University of Louisville School of Public Health and Information Sciences. Her research interests are maternal and infant health, reproductive health, health policy, and health care quality and access. She has a diverse professional background spanning philanthropy, community-based non-profit organizations, and academia and research. Most recently, she was the Director of Data Management and Innovation at the Kentuckiana Health Collaborative where she was responsible for quality health care measurement.
Michael Ho	Health Services Researcher; Purchaser and Plan; Clinician; Facility/Institutional; Rural Health Expert	MD, PhD	Cardiologist	VA Eastern Colorado Health Care System and University of Colorado School of Medicine and American Heart Association	Aurora, Colorado	Dr. Michael Ho is a general cardiologist at VA Eastern Colorado Health Care System and Professor of Medicine, University of Colorado School of Medicine. He is Vice Chair for Quality for Department of Medicine. He served previously as the Chair of the ACC/AHA Joint Committee on Performance Measures and has conducted research on the quality of cardiovascular care.
Padmaja Patel	Clinician; Facility/Institutional	MD, FACLM, DipABLM	President- Elect; Vice President; Lifestyle Medicine Regional Medical Director	American College of Lifestyle Medicine; World Lifestyle Medicine Organization; Wellvana	Midland, Texas	Dr. Padmaja Patel has been a practicing internist in Midland, TX, for nearly two decades. She is the Lifestyle Medicine (LM) Regional Medical Director for Wellvana, a national value-based organization. She also serves as Vice President of Midland Quality Alliance, a clinically integrated network of physicians in Midland, TX. She is a member of the National Quality Forum's 2021-2023 Leadership Consortium and has served on CQMC's Primary care and ACO workgroup. She has developed successful lifestyle medicine-based chronic

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						disease remission programs and delivered these in person and through virtual settings. She has passionately advocated for lifestyle medicine integration within health systems across the patient care continuum and in employee and population health.
Pamela L. Sartin	Health Equity Expert; Clinician; Facility/Institutional	RN	Quality Improvement Risk Management Coordinator	Chota Community Health Services	Madisonville, Tennessee	Mrs. Pamela Sartin is a registered nurse and the Quality Improvement/ Risk Management Coordinator for Chota Community Health Services, where she oversees the overall management of the Clinical Quality Improvement & Risk Management programs. Mrs. Sartin strives to ensure that her community health center offers high quality patient care that meets and exceeds federal standards to improve the overall well-being of patients. She brings to the committee 8 years of frontline Federal Qualified Health Center knowledge with the last 5 years focused on quality improvement within a large community health center as well as extensive knowledge on the development, implementation, growth, and monitoring of quality improvement programs and initiatives mandated by HRSA, CMS, and contracted managed care organizations. With first-hand knowledge of unique barriers that rural community health centers are challenged with daily, Mrs. Sartin hopes to shed light on the importance of meaningful and attainable preventative care measures and how they can positively affect patient outcomes across the care spectrum.
Paula Farrell	Other Interested Parties; Clinician	MS, BSN, RN, CPHQ	Project Director (Contractor)	Lantana Consulting Group	Chicago, Illinois	Ms. Paula Farrell is an experienced ICU registered nurse with over 20 years of experience in clinical quality measurement and improvement. She previously served as Project Director at The Joint Commission (TJC) and led efforts to develop and maintain clinical quality measures. At Lantana, Ms. Farrell is working with the Centers for Disease Control and Prevention (CDC) as the Project Director to assist with measure development and measure endorsement for the National Healthcare Safety Network (NHSN).
Peter Herrera	Patient Partner	--	--	--	--	--

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
Pooja Kothari	Patient Partner; Other Interested Parties	RN, MPH	Consultant	X4 Health	Princeton, New Jersey	Ms. Pooja Kothari is a consultant with X4 Health, a mission-driven consulting firm working to solve complex problems. Her current work focuses on serving as a health equity subject matter expert for a quality improvement organization, providing strategic input on quality measures related to primary care and prevention, working with health plans on health promotion. In her previous role at United Hospital Fund, Ms. Kothari's work entailed research to understand how patients and families make decisions about their health using publicly reported quality measures, as well as work on learning collaboratives to improve patient experience and outcomes. She has also worked on projects related to measures that matter to consumers, patients, and families including work to support the development of New York State's Primary Care Core Measure Set. Ms. Kothari has also worked at the Pew Charitable Trusts on antibiotic resistance and stewardship which included considerations around measures related to antibiotic use and reporting. Ms. Kothari received her Master of Public Health from the Johns Hopkins Bloomberg School of Public Health, and her Bachelor of Science in Nursing and Bachelor of Science in Economics from the University of Pennsylvania.
Ramsey Abdallah	Facility/Institutional	MBA, PMP, CMQ/OE, CPHQ, CPPS, FACHDM	Senior Director, Quality Management & Performance Improvement	Northwell Health	Manhasset, New York	Mr. Ramsey Abdallah is a senior population health care leader with experience in program development, performance improvement, project management, and data analytics. Mr. Abdallah is experienced in overseeing multi-specialty quality measure portfolios, and has lead measure development and implementation across large health systems. He is responsible for the governance of ambulatory quality metrics and champions process improvement to adopt eQIM measures and is also responsible for adherence to quality reporting for the MIPS and MSSP programs, overseeing policy adoption for both programs. Mr. Abdallah is currently championing the adoption of universal prevention metrics based on the CMS universal measure set.
Rebekah Angove	Patient Partner; Health Services Researcher; Health Equity Expert	PhD	Executive Vice President, Research and Evaluation	Patient Advocate Foundation	Hampton, Virginia	Dr. Rebekah SM Angove is a health services researcher and leader in patient engagement. She currently serves as the Executive Vice President of Research and Evaluation, and Director of the Patient Insight Institute at Patient Advocate

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
			Director, Patient Insight Institute			Foundation. Her work is focused on mapping the patient experience and uncovering unmet needs, translating those needs to direct service and policy recommendations, and evaluating the impact of initiatives. She has led numerous projects focused on addressing health disparities and integrating the patient perspective into care and research. She is active in national committees and as an engaging speaker bridging the needs of the patient community with emerging issues in health care.
Robert R. Mayo	Clinician; Facility/Institutional	MD	Chief Medical Officer	Rochester Regional Health	Rochester, New York	Dr. Robert Mayo began serving as the Rochester Regional Health Chief Medical Officer in 2014. Prior to this role, he served as the Rochester General Health System Chief Medical Officer, the Rochester General Hospital VP-Patient Safety Officer, Chairman of the Quality Improvement Council, and President of the Medical and Dental Staff. Combined, these leadership roles comprise 18 years of senior clinical leadership with significant quality and patient safety responsibilities. He understands the vital importance of accurate measurement, outcomes that matter, rigorous process control, and accountability. As a member of the E&M committee, he will bring a wealth of clinical and leadership experience.
Sandeep Vijan	Facility/Institutional; Clinician; Other Interested Parties	MD	Associate Chief Quality Officer for Analytics	University of Michigan Health	Ann Arbor, Michigan	Dr. Sandeep Vijan is a primary care internist and the Associate Chief Quality Office in charge of analytics for quality measurement and improvement at the University of Michigan. He has extensive experience in defining and measuring quality in primary care, particularly focused on preventive care. He has conducted research focused on defining quality in the areas of cancer screening, cardiovascular prevention, diabetes, and depression, as well as understanding the value of improvement in quality of care for these conditions. In his current role, he leads a large clinical analytics group that produces quality and clinical outcomes data for the University of Michigan Health system, including a new focus of integrating measurement across multiple hospitals, including academic, community, and critical access hospitals across the state of Michigan.

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
Shoshana Levy	Purchaser and Plan; Clinician	MD MPH, FACPM	Medical Director	CVS/Aetna	Boynton Beach, Florida	Dr. Shoshana Levy is board certified in General Preventive Medicine and Public Health. She has a Master of Public Health degree from Nova Southeastern University and received her medical degree from Tel Aviv University. Dr. Levy completed her public health residency at the Florida Department of Health Palm Beach County, where she later served as Residency Program Director. She currently works for CVS/Aetna and has experience in primary care, public health, graduate medical education, and the insurance industry.
Terra Stump	Other Interested Parties; Clinician	MS, BSN, RN-BC	Quality Improvement Coordinator; Clinical Advisor	Quality Insights; Mathematica	South Charleston, West Virginia	Ms. Terra Stump is a clinical advisor and registered nurse certified in nursing informatics with direct patient care experience in a variety of health care settings including inpatient, outpatient, and community health. She is a clinical researcher, with over a decade of experience developing and maintaining evidence-based clinical quality measures (CQMs) and electronic clinical quality measures (eCQMs) used in Centers for Medicare & Medicaid Services (CMS) value-based care programs. Ms. Stump has worked extensively with multi-stakeholder groups to define measurable, evidence-based, health-related concepts for Electronic Health Record (EHR) data collection. She has experience creating technical specifications following standards, and clinical coding, terminology expertise with a variety of code systems.
Tim Laios	Other Interested Parties	MBA, MPH	Chief Data Officer	Health Services Advisory Group, Inc.	Phoenix, Arizona	Mr. Tim Laios brings over 20 years of measure experience to the PQM Primary Prevention committee. He is currently leading performance measure work on behalf of 22 different Medicaid agencies ranging from External Quality Review contracts to CMS 1115 Medicaid Waiver evaluations. His data expertise includes demographic, administrative (e.g., claims), medical record, MDS 3.0, CDC NHSN HAI, registry, vital statistics, laboratory, geographic, and survey data. Mr. Laios is currently working with several Medicaid agencies to develop custom state-specific performance measures that are tailored to the unique needs of each Medicaid program. He is also involved in the adaption of measures to support CMS contracts (e.g., CMS Medicare-Medicaid Financial Alignment Demonstration) and is an active member of the CMS Medicaid

Name	Roster Category/Perspective	Credentials	Title	Organization	Location	Bio
						and CHIP Scorecard Measures Development Technical Expert Panel.
Timothy Switaj	Facility/Institutional; Clinician	MD, MBA, MHA, CPE, CMQ, CPPS, FACHE, FAAFP	VP and Regional Chief Medical Officer	West Region, WellSpan Health	Chambersburg, Pennsylvania	Dr. Timothy Switaj is a family medicine physician who, prior to his current position, served in the U.S. Army where he led primary care transformation efforts. He is passionate about preventive care, especially having taken care of the military population, and designed a new model of care delivery for the military health system based on prevention, especially in patients without chronic medical conditions. He has served on numerous national committees and looks forward to continuing his work, placing emphasis on primary prevention, in the primary care setting.
Zhenqiu Lin	Other Interested Parties	PhD	Senior Director of Healthcare Analytics	Yale Center for Outcomes Research and Evaluation	New Haven, Connecticut	Dr. Zhenqiu Lin has over two decades of experience developing quality measures for different care settings. He has directed countless analytical activities that are the foundation of many publicly-reported quality measures. He has in-depth understanding of health care data and advanced analytics and deep health care domain expertise. He is looking to leverage his data and methodology expertise to contribute to the development and implementation of excellent quality measures.

### Summary of Roster Public Comments

This roster was posted for public comment from October 5 – 25, 2023. No public comments were received for this roster.
